KITCHEN STARTER PACKS

Packs for people who need help equipping their home

When people ask us for help with equipping their homes we visit them to assess what they need. A kitchen starter pack containing fresh, new items is great to take with us on these initial visits as it makes people feel cared for.

The following are very useful:

(why not see what you can get in a new washing up bowl?)

- Bottle of washing up liquid
- Dish cloths
- Pots and pans
- Tea towels
- Bottle of kitchen cleaner
- Measuring jug
- Cling film
- Kettle
- Dustpan and brush
- Fairtrade tea, coffee, sugar
- Biscuits or other non-perishable goodies
- Any small treat you would like to receive yourself

Most of the people we help already have low self-esteem. If we give them items labelled as 'value', it gives them the impression that they don't deserve any better and this is the quality of produce that many of our recipients are used to making do with. Why not show them that God's love and provision is superior and so much more generous than that of the world.
